RO chemical

Chemicals for reverse osmosis plants, supplied to suit your water.

Overview

RO plants need chemicals for pre-treatment, scale control and membrane cleaning. We supply the range and help you choose the dosing for your feed water, so the membranes last and the plant stays clean.

Key features

- Chemicals for scale control and cleaning
- Dosing advice for your feed water
- Supplied in sealed drums and cans
- Matches the membrane maker's guidance
- Repeat supply from our stock

Typical applications

- RO plants
- Drinking and mineral water RO
- Industrial RO

Typical specifications

Range	Antiscalant, membrane cleaners, biocides
Form	Liquid
Pack	Drums and cans
Dosing	By dosing pump, set to feed flow

Values are typical, for reference. The final specification is confirmed in our quotation, against your flow, pressure and water analysis.
